EDUCATION

ICAR – Indian Agricultural Research Institute

B.Sc. (Hons.), Agriculture – 3rd Year, 5th Semester

2024 – 2028 (Expected)

CGPA: 9.1 / 10.0

The Shri Ram Universal School

Class XII (CBSE)

2022

Percentage: 95.4%

IB School

Class X (CBSE)

2020

Percentage: 97%

TECHNICAL SKILLS

- **Programming & Data Analysis:** Python, Statistical Analysis, Data Visualization, Biostatistics
- **Bioinformatics & Computational Biology:** BLAST, NCBI, UniProt, Protein Structure Analysis, Sequence Analysis, Multiple Sequence Alignment, Biopython
- **Tools & Platforms:** Jupyter Notebook, Microsoft Excel, PDB, Clustal Omega
- **Core Biotechnology:** Molecular Biology, Cell Biology, Microbiology, Biochemistry, Genetics, Genetic Engineering
- **Laboratory Techniques:** PCR, Gel Electrophoresis, DNA/RNA Extraction, ELISA, Cell Culture, Microscopy, Aseptic Techniques, Spectrophotometry

PROJECTS

Cancer Biomarker Identification Using Gene Expression Data

- Analyzed gene expression datasets to identify potential biomarkers associated with cancer
- Performed data preprocessing, statistical analysis, differential gene expression analysis, and visualization using Python/R
- Interpreted significant genes and explored their potential biological relevance

Genome Annotation & Functional Analysis

- Performed computational analysis of genomic sequences to identify genes and predict their potential biological functions
- Used NCBI and bioinformatics tools for sequence analysis, annotation, and functional characterization
- Applied sequence similarity and database analysis to investigate genomic features

Machine Learning-Based Disease Classification

- Developed a machine learning model to classify disease-related biological samples using relevant biological datasets
- Performed data preprocessing, feature selection, model training, and performance evaluation using Python and Scikit-learn
- Compared classification algorithms and evaluated model performance using appropriate statistical metrics

ACHIEVEMENTS & SCHOLARSHIPS

- **Reliance Foundation Undergraduate Scholarship** – Recipient of the merit-based undergraduate scholarship awarded by Reliance Foundation
- **Global Conference on Women in Agri-Food Systems** – Technical Team Volunteer
- **International Fisheries Conference** – Volunteer
- **NSS Camp | NYF 2024–2025** – Volunteer and participant in community engagement and social service activities
- **Climate Tech You Hackathon** – Participant; contributed to technology-driven solutions addressing climate and sustainability challenges
